

Application No. 10/750,522  
Response to Office action of November 8, 2007

Att. Docket No. 042390.P16465  
TC/A.U. 2823

### Remarks

The Applicant respectfully requests reconsideration of the present U.S. Patent application as amended herein. Claims 16-30 have been withdrawn. Claims 1 and 31 have been cancelled without prejudice. Claims 2, 3, 12, 14, 15, 32, and 35 have been amended. Thus, claims 2-15 and 32-36 remain pending in the application.

### Claim Objections

Claims 32-36 were objected to because of an informality associated with the preambles of each claim. In response, the Applicant has amended the preamble of each claim to correct the informality. Thus, the Applicant respectfully requests that the objection to claims 32-36 be withdrawn.

### Allowable Subject Matter

Claims 2-11 and 32-34 were objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 2-11 depend (directly or indirectly) from claim 1 and claims 32-36 depend (directly or indirectly) from claim 31.

Claim 2 has been rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 3, 12, 14, and 15 have been amended to depend from amended claim 2. Original claims 4-11 and 13 depend (either directly or indirectly) from claim 2. Thus, claim 2 is allowable and claims 3-11 depend from an allowable claim.
